San Francisco, California
November 15/16 2013

EHI:7 Existential Humanistic Institute Annual Conference

Befriending Anxiety and Worry: Finding Strength and Meaning in Everyday Living

“Finding the center of strength within ourselves is in the long run the best contribution we can make to our fellow men. ... One person with indigenous inner strength exercises a great calming effect on panic among people around him. This is what our society needs — not new ideas and inventions; important as these are, and not geniuses and supermen, but persons who can “be”, that is, persons who have a center of strength within themselves.”

— Rollo May, *Man's Search For Himself*

SPEAKER PROPOSALS NOW BEING ACCEPTED

We welcome proposals that address this theme from a variety of perspectives with preference for experiential workshops that combine a didactics with ‘felt experiencing’ or other modalities that move us beyond the abstract and talking ‘about’ things.

ABOUT EHI:7

Celebrating EHI's 7TH annual conference, EHI:7 will focus on the introduction and deepening understanding of the *theory and practice of existential-humanistic psychotherapy*.

Register today at www.ehinstitute.org

2-Day Conference
San Francisco, California
November 15/16 2013

Learn the basic assumptions underlying existential-humanistic (E-H) psychotherapy, therapeutic interventions as illuminated through “live” work with active cases, demonstrations, and engaging presentations. Also explore how to effectively work in the “here and now” with yourself, your client, and in the relation between the two. Stretch the principles of E-H beyond psychotherapy into other realms of human experience and psychological work.

EHI:7 will be held in San Francisco, at AgeSong Elder Care in centrally-located Hayes Valley neighborhood. The planned schedule will include high level keynote speakers and workshops. EHI:6 hosted over 5 keynote speakers and 6 breakout sessions.

Earn Continuing Education Units (CEU)

CEU is available to RN, RCFE, and BBS (MFTs/LCSWs).

The **Registration Fee** will cover keynote and breakout sessions, coffee breaks, lunches and a special evening reception. The Professional rate is \$250, student rate is \$150. There is also a 1-Day attendee fee option: The Professional rate is \$150, student rate is \$75.

ABOUT EHI

EHI was formed as a non-profit organization under the auspices of the Pacific Institute in 1997. The Institute’s primary focus is training. EHI offer courses in existential-humanistic therapy and theory.

EHI provides a “home” for those mental health professionals, scholars, and students who seek in-depth training in existential-humanistic philosophy, practice, and inquiry. EHI is for trainees who believe that in optimal psychotherapy, as Rollo May said, it is not this or that symptom, but “the life of the client” that is “at stake” – and that it is precisely this life that must be supported, accompanied, and encountered.
